## *Inquest into the death of Grace [2024] NTLC 7*

DATE	NOTES - Recollection of counselling sessions as listed below.
4.6.21	Self referral. Discussed counselling rules / informed consent. Please note I am unable to find the signed consent form. Friendship issues. Discussed the frequency of friendship transitioning and the difficulties this causes, sensitivities and changing nature of growing up. Session: Grace was insightful, chatty, friendly and appeared to enjoy session.
11.6.21	Peer group issues continued.
13.9.21	Due to attend on Friday, but forgot. Rescheduled for Monday 13.9. Grace feeling down. Just overall, nothing particularly. Doesn't feel important. Has thought about suicide. Plan? None. What would impact on those around her be? Discussed impact. 'Won't do it (suicide)', but feels life can be pointless at times. What to look forward to? Grace easily recognised that seeing her friends is good and an upcoming party should be fun. Assessed low suicidality. T.c. to Father - [REDACTED] updated about Graces suicidal thoughts, offered ongoing counselling.

“Notice all the computations, theoretical scribbles, and lab equipment, Norm. ... Yes, curiosity killed these cats.”
